SE Series

High Voltage Safety Enclosures

Vitrek's SE Series High Voltage Safety Enclosures are designed to prevent the potential of electrical shock when performing electrical safety testing.

Quality and Reliability

Vitrek, founded in 1990, is the premier source of precision power testing and measuring equipment for industrial and consumer product development and manufacturing. Vitrek's sophisticated technology provides companies the edge in design verification and product manufacturability.

Safety First! - Vitrek's SE Series of high voltage safety enclosures are designed to prevent the potential of electrical shock when performing electrical safety tests. The enclosure comes standard with a magnetic safety interlock switch and chassis ground connection that must be wired from the safety tester to the safety enclosure by the end customer for safe operation.

Extremely Flexible in a Variety of Applications - The SE Series safety enclosure is available in a variety of sizes and is easily adapted to small or large non-standard applications.
